

Exhibit C

1/13/10 Anesthesia F/U

Case 3:11-cv-02050-MAS-DEA

Document 11-4

Filed 08/11/11

Page 2 of 2 PageID:

1845 Pt w/ apparent recall of intra-operative events

Review of files Rec rev pt received Versed preop
+50% N2O/50% Oz +1.5% Isoflurane. Discussed w/ pt

Anes-anesth ant should have been adequate.

Pt understands - some pts (1:300,000) have
recall despite adequate anesth. Told pt in future
to inform all anesth providers of recall episode as
Pt may need higher anesth doses. Pt seems
calm - NO apparent anxiety or nightmare. Psych-
consult appreciated. F/U as needed.
